

Dr. Santhivardhan Chinni M. Pharm, Ph.D.

Associate Professor

chinni0143@riper.ac.in, chinni0143@gmail.com

+91-9885620668

BIOGRAPHY:

Santhivardhan Chinni is a pharmacologist with over a decade of experience in teaching and research. He obtained his PhD in 2014 for his contribution on drug interaction studies of hypoglycaemic herbs. He is a part of 10 research publications indexed in ESCI. He is a recipient of the Summer Research Fellowship by INSA in 2018. He has a hands-on experience with the surgical induction of stroke in rats. His research in the “exploration of post-stroke neurological recovery” has received a grant worth Rs. 10.5 lakhs from AICTE under RPS scheme in 2020. His expertise includes neuropharmacology, herb-drug interaction studies, and safety pharmacology. He is a curious learner and a facilitator. He introduced various online learning and MOOC courses to the students of RIPER, including NPTEL, NIH-Principles of Clinical Pharmacology, etc. He is a part of the three-membered committee for the information and communications technology (ICT) based teaching platform in RIPER. To collaborate on a potential line of academic/scientific work, you can contact him below.
