Raghavendra

Institute of Pharmaceutical Education & Research (RIPER)

(AUTONOMOUS)

NBA-UG & NAAC Accredited Institution & Accorded 2 (f) & 12 (B) Status by UGC
Awarding University : JNTU Anantapur, Anantapuramu, Approved by AICTE & PCI, Govt. of A.P.

Dr. Y. Padmanabha Reddy, M.Pharm., Ph.D.,
Principal

Date :

WATER CONSERVATION FACILITIES AVAILABLE IN THE INSTITUTION

Raghavendra Institute of Pharmaceutical Education and Research is located in rural area, there is no Municipal Water supply for the college. The college depends on ground water for all its water needs. Hence, efficient usage of available water and adaptation of water conservation measures are essential. The daily requirement of water in the campus is around 200000 liters.

The following measures are taken for the conservation of water:

1. RAIN WATER HARVESTING

Rainwater gathered from roof tops and flowing within the campus is collected in a percolation pit built within the campus to restore ground water.

2. BORE WELL RECHARGE

A bore well located in the campus is recharged by rain water.

3. USAGE OF WASTE WATER

Waste water discharged from the canteen is used for gardening, tree watering, and other purposes.

4. MAINTENANCE OF WATER DISTRIBUTION SYSTEMS IN THE CAMPUS

Water is distributed through a well-maintained pipe network. Drinking water after treating in RO plant is supplied through a separate set of distribution pipes and water for all other purpose is supplied through another set of distribution pipes. Entire distribution system is well supervised by workers to ensure that there are no leakages and wastages of precious water through joints, valves etc.
