## Report on the student attributes facilitated by the institution

For faster development of a student, there should be a balance between Curriculum and Co-Curricular activities. Co-curricular activities allow the students to develop particular skills and exhibit their non-academic abilities. There are various types of extracurricular activities conducted in the college, which offer students, an opportunity to work with others and to gain essential life skills. The following activities are more prominently conducted in our institution such as NSS activity, cultural activity, and sports activity through various committees like NSS committee, cultural committee, and sports committee. The sports department in the institution organizes various activities for students to participate in and to develop their skills in various District and state-level competitions. In the field of cultural activity, students are trained for singing and dancing. Students are trained to carry out practice in the field of sports to take part in various competitions like Cricket, Kho-Kho, Kabbadi, and Basket Ball. The college organizes various social service-related activities such as N.S.S., tree plantation, cleanliness drives like Swatch Bharath, leadership development activity, and so on. Extracurricular involvement allows the students to link academic knowledge with practical experience thereby leading to a better understanding of their abilities, talents, and career goals. Beyond this, the institution also focuses on various soft skill training and development programs. The college feels proud to mention that through these various extracurricular activities.
