Dr Vijay has a good level of knowledge and experience in the field of pharmaceutical care plan evaluation, prescription analysis, pre-clinical, and clinical research. He has more than 17 years of rich experience in the field of biomedical research and worked in various positions in academia and industry. He also worked as a research scholar at Northern Border University, Kingdom of Saudi Arabia for 8 years and won 8 Research Grants from the Ministry of Education and Research, Saudi Arabia.

Dr Vijay has authored 72 research articles and a few book chapters in well-reputed scientific journals and publishers. He is also a technical editor of a few prestigious scientific journals. In 2016, one of his findings got the best research paper award at DUPHAT International Conference, Dubai, UAE. Considering the importance of various diseases like Osteoporosis, Cancer, infertility, obesity, and Diabetes in India, he diverted his research work to this field. During his career, he has received various awards and recognitions like *Universal Out Standing Researcher Award (2020)* by *International American Council for Research and Development - USA*, *National Eminent Young Scientist Award 2020* by *I2OR (International Institute of Organized Research) India*, and *Top 50 International Distinguished Young Scientist Award 2020* by *Green Thinkersz. India*.

From April 2022 he is working as a regular faculty and serving as Professor of Pharmacology and Director of the Research and Development Unit, Raghavendra Institute of Pharmaceutical Education and Research, Andhra Pradesh, and guiding budding researchers in the field of biomedical sciences.
