i CARE Bulletin

Dear Readers,
Warm greetings.

Our warm wishes and wishing you safe journey through this second wave of COVID-19 Pandemic.

We are obvious, we need to be remained vital for our health care system to continue caring for all patients while mitigating their exposure to potential sources of infection and educating the public on how to avoid the disease spread.

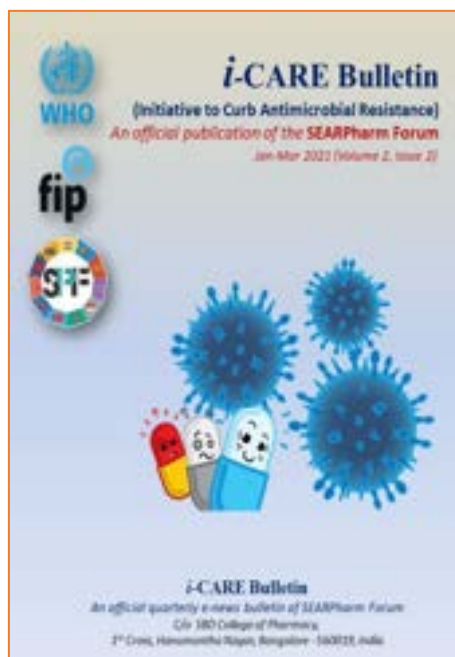

In this Issue 1 of Volume 2, (Jan-Mar 2021) We read, the President's message from SEARPharm Forum on the importance of COVID-19 Vaccination and he shared the views on second wave COVID-19.

We added two article that emphasized as question and answer from WHO for better understanding of COVID-19 vaccines and then followed by an article on antievolution strategy in antimicrobial resistance.

We appreciate and would like to take this moment to thank all of you on the front lines of fighting the pandemic, and caring for people affected by it.

“We encourage you all to Vaccinate against COVID-19 to make our self and dear and near safer in future”.

Best Regards,
Editorial Team,

COVID 19 Helpline and Information Center

Helping people find useful information

Jawaharlal Nehru Technological University Anantapur

THE INDIAN PHARMACEUTICAL ASSOCIATION (IPA) ANANTAPUR BRANCH

COVID-19 Helpline and Information Center

Helping people find useful information

Launch of COVID-19 Helpline and Information Center
An initiative for helping people get the right information to stay healthy, is more important than ever in the face of a global pandemic like COVID-19 made by JNT University Anantapur in association with the prestigious Indian Pharmaceutical Association (IPA) Anantapur Local Branch.

Function of COVID-19 Helpline and Information Center
The COVID-19 Helpline and Information Center provides unbiased and updated information about COVID-19 obtained from trusted information resources made available in World Health Organization (WHO); Centers for Disease Control and Prevention (CDC); Ministry of Health and Family Welfare (MoHFW) Government of India; and Health, Medical and Family Welfare Department, Govt of Andhra Pradesh.

COVID-19 Helpline and Information Center and services are operated in Anantapur, Kurnool, Kadapa, Chittoor, and Nellore districts of Andhra Pradesh, supported by Raghavendra Institute of Pharmaceutical Education and Research (RIPER) Autonomous, Santhiram College of Pharmacy (SRCP), Annamacharya College of Pharmacy (ANCP), Sri Padmavathi School of Pharmacy (SPSP), Seven Hills College of Pharmacy (SHCP) and Sun Institute of Pharmaceutical Education and Research (SIPER) respectively.

<https://www.intua.ac.in/intua-covid-19-helpline-and-information-center/>
<https://intua.ac.in/wp-content/uploads/2021/05/INTUA-B20-B.Tech-AIDS-Course-Structure-Syllabus-2020-21.pdf>

The idea of COVID-19 Helpline and Information Center was conceptualized by Prof. L. Kesava Reddy, Director of Evaluation, INTUA and executed by Department of Pharmacy Practice and NSS Unit of Team RIPER.

Note: This is an information resource only, not a substitute for any professional diagnosis or treatment. Please consult your healthcare provider before making any healthcare decisions. The helpline and information centers have no liability whatsoever suffered as a result of your reliance on the informations provided.

The Indian Pharmaceutical Association (IPA) Anantapur Local Branch for the first of kind in collaboration with JNT University Anantapur and Raghavendra Institute of Pharmaceutical Education and Research (RIPER) Autonomous launched the COVID 19 helpline and information center as an initiative for helping people get the right information to stay healthy is more important than ever in the face of global pandemic.

International Day Against Drug Abuse & Illicit Trafficking

The International Day against drug abuse and illicit trafficking is a UN International Day against drug abuse and the illegal trade. It is observed annually on 26 June, since 1989. The date June 26 is to commemorate Lin Zexu's dismantling of opium trade in Humen, Guangdong, ending the June 25, 1989, just before the first Opium War in China. The observance was instituted by General Assembly Resolution 42/112 of 7 December 1987.

Blood Donors Day

June 14th 2021

Raghavendra Institute of Pharmaceutical Education and Research (RIPER)-Autonomous

Procedure Why You Should Donate Blood

1. Development of new medicines and vaccines: Since the last 24 hours of blood donation, the donor's body starts replenishing the lost red blood cells. The replacement process is in storing healthy and productive cells.
2. Reducing risk of heart disease: As per several studies reports, when there is a low iron level in blood, it leads to the chances of heart diseases. Regular blood donation helps to reduce the iron level in the blood.
3. Better vision: Donating blood can turn approximately 400 calories for each pint that is the 400 cal of blood.
4. Freshen blood: On donating blood, the donor receives a fresh and healthy-looking and vibrant skin. It also often can save during blood.

The minimum interval between two donations is 3 months. The gap helps blood regain the normal haemoglobin level.

International Nurses Day

12th May-2021

Remembering English social reformer, statistician and the founder of modern nursing and also known as "The Lady With the Lamp" Florence Nightingale on her birth anniversary and International Nurses Day. Salute to the nurses for their tireless services.

World Hand Hygiene Day 2021

Seconds save lives - clean your hands!

SAVE LIVES Clean Your Hands

Campaign theme: Achieving hand hygiene at the point of care
Slogan: Seconds save lives - clean your hands!

Campaign objectives:

- Increase patient awareness, engagement, and compliance with hand hygiene activities at the point of care, according to the WHO 5 Moments for Hand Hygiene (WHOISG) strategy.
- Support implementation of the WHO 2021 recommendations for universal hand hygiene and of the WHOISG 2021 strategy for hand hygiene in health care facilities.

Hand Hygiene

Hand hygiene is the most effective way to prevent the spread of infections. It is a simple and easy-to-learn practice that can save lives. The WHO 5 Moments for Hand Hygiene strategy provides a clear and concise framework for hand hygiene in health care facilities. The WHOISG 2021 strategy for hand hygiene in health care facilities provides a clear and concise framework for hand hygiene in health care facilities.

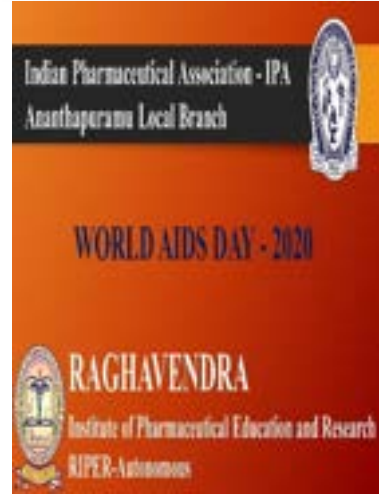

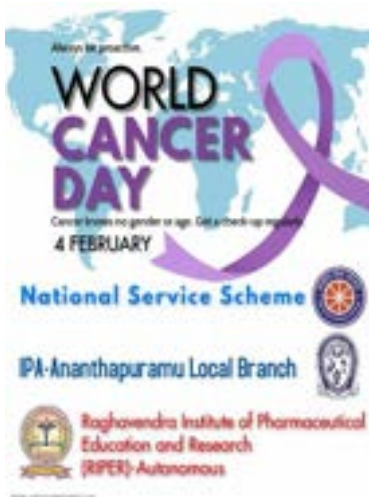

SAVE LIVES Clean Your Hands

SAVE LIVES Clean Your Hands

TEAM IPA ATP

We support the Save Lives, Clean Your Hands Campaign.
